Files Sizes and Approximate Times to Download

## **Installing Home Designer**

When the installer file is completely downloaded, the Setup Wizard will launch automatically.

If it does not, browse to the location where you saved it, which is Documents\Downloads by default, then doubleclick on the file with the title of your Home Designer program in its name, followed by a version number.

#### **Setup Wizard Welcome**

| 剴 Home D                       | esigner Pro 2016 (64 bit) Setup 🛛 – 🗖 🗙                                                                               |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Home Designer.<br>Professional | Welcome to the Home Designer Pro 2016<br>(64 bit) Setup Wizard                                                        |
|                                | Please wait while the Setup Wizard prepares to guide you<br>through the installation.<br>Computing space requirements |
|                                | Back Next Cancel                                                                                                      |

1. If you have not installed the program before, the Welcome window will display. Click Next to continue.

#### **Setup Maintenance**

2. If you have installed the program before, this window will display, allowing you to reinstall or uninstall the program. If you are installing the program for the first time, this window will not display.

#### License Agreement

- 3. Read the License Agreement carefully. You must check the box beside **I accept the terms and conditions of this license agreement** before installing.
  - Click the **Advanced** button to specify a non-default installation location or exclude supplementary content from being installed.
  - Click **Install** to begin installing the software. The Setup Wizard will copy files to your hard disk, which may take a few minutes.

#### **Choose Destination Location**

- 4. This window appears only if you click the **Advanced** button, and then the **Change** button, in the previous windows. Choose the destination folder for the program. By default, the program installs in a folder with the C:\Program Files\Chief Architect, in a folder with the same name as your program version. You can, if you wish, choose a different destination folder on the local machine.
  - If you prefer a different location, click the drop-down arrow to the right of the **Look in:** location and navigate to the desired location on your hard drive.
  - You can also type the full pathname of the installation directory in the Folder name: field.
  - Click **OK** to proceed to the next window.

Note: Regardless of the location that you specify here, the program's library content will be installed in your computer's ProgramData folder.

#### **Choose Items to Install**

|   | erequires 1103kB on your hard drive.                                                                                                                                                                       |

- 5. You can use this window to specify what features to install.
  - Click on a line item to select it. Information about its contents and hard drive space requirements displays beneath the list of features.
  - Click the drop-down arrow beside a line item to specify how it is installed. By default, **Entire feature will be installed** is selected for all line items.
  - Select Entire feature will be unavailable to prevent a selected feature from being installed. When this option is selected, a red X will display beside the line item's drop-down arrow.
  - Click Install to install the program and supplemental content as specified.

#### Install

- 6. Click **Install** to continue. The Setup Wizard will begin copying files to your hard disk after a few moments and a green progress bar in this window will show the status of this process. This may take a few minutes.
  - The installer checks your hard drive for enough space to install the software successfully. If it does not find enough space, a warning message will display. You may be able to resolve this issue by running the Disk Cleanup Utility on your system. 7. When all files have been copied, this dialog will display. Click Finish to launch Home Designer.

# **Starting Home Designer**

You can use the Start menu or the shortcut on your desktop to start Home Designer.

When you launch the program for the first time, the Product Activation dialog will open.

• Enter your **Product Key**, which is located in the account information from your download or on a sticker inside of your DVD case.

- Click the Activate button to launch the program.
- Enter your **Product Key**, which is located in the account information from your download or on a sticker inside your DVD case.
- Click the Activate button to launch the program. Not available unless a valid Product Key has been entered.

If your product key is not associated with a User Account on our web site, the **Register Home Designer License** dialog will open next.

So that you can take full advantage of our online resources, click the **Register License** button and take a moment to associate your software license with a User Account on our web site, <u>www.HomeDesignerSoftware.com</u>.

# **Migrating Library Catalogs**

If you have Home Designer version <u>9</u> through 2015 installed on your computer, the **Migrate Library Catalogs** dialog will display after you activate the license, allowing you to migrate library content for use in Home Designer 2016. If multiple legacy versions are present, only the content associated with the most recent will be migrated. See "Library Content" on page 777 of the Reference Manual.

#### **Migrate Library Catalogs Dialog**

- A list of all **Home Designer Core**, **Home Designer Bonus**, and **Manufacturer Catalogs** installed in your version 2015 library display here.
- Uncheck the box beside a library catalog's name to prevent it from migrating into the version 2016 Library Browser.

Select All/Clear All -

- Click the Select All button below a list to migrate all catalogs in that list into the version 2016 library.
- Click the **Clear All** button below a list to migrate none of the catalogs in that list into the version 2016 library.

Uncheck **User Catalog** if you do not want to migrate your custom library content into version 2016. When this is checked, your version 2015 custom library content will be migrated and placed in your User Catalog.

#### Legacy Library Conversion

If you upgraded to Version 2016 from a Home Designer version between and have custom library content from that version on your Windows<sup>®</sup> computer, the **Legacy Library Conversion** dialog will display.

To convert this custom content for use in Version 2016, click Yes.

# **Troubleshooting Problems**

If you encounter problems either downloading or registering your software, the following suggestions may be helpful.

- Make sure that you can visit our web site using your default web browser.
- Disable your firewall for the duration of the download, installation, and registration process.
- Disable other security applications, including anti-virus and download manager software, for the duration of the download, installation, and registration process.

Remember to re-enable all security applications and restore all settings when you are finished downloading, installing, and registering.

# **Program Updates**

From time to time, Chief Architect releases downloadable program updates at www.HomeDesignerSoftware.com.

Whenever an update is available, a dialog will display when the program is opened.

- Click Yes to open your default web browser to the Program Updates section of the Home Designer web site.
- Click No to launch Home Designer.

At any time, you can select **Help> Download Program Updates** from the Home Designer menu to launch your web browser to the Program Updates section of the Home Designer web site.

# Installing on Multiple Computers

A license of Home Designer can only be active on one computer at any given time. If you have been running the software on one computer and wish to run it on a different computer, or if you wish to rename your computer, you must deactivate your license first.

For details, please refer to the **End User License Agreement**, found in both the program installer and the User's Guide .pdf.

#### To deactivate a Home Designer license

- 1. Launch the program on the computer where the license is active.
- 2. Select **Help> Deactivate License** from the program menu.
- 3. Click Yes to confirm that you wish to deactivate the license.
- 4. After a pause, the program will close.

License activations can also be deactivated in your User Account on our web site, www.HomeDesignerSoftware.com.

#### To manage license activations online

- 1. Visit <u>www.HomeDesignerSoftware.com</u> and log in to your Account.
- 2. Browse to the **Digital Locker: Software Downloads and Product Keys** page.
- 3. Click the link to Manage your Active Licenses.
- 4. Click the **Deactivate** button to deactivate your license on the computer where it is currently active, making it available for use on another computer.

If you are using hardware lock security, you do not need to deactivate your license. Instead, make sure the program is not running and unplug the lock. Then attach the lock to the computer you wish to use before launching Home Designer.

# **Uninstalling Home Designer Software**

Home Designer can be removed from a Mac by moving it to the Trash. This does not deactivate the license, however, so you may want to deactivate your license before removing the program.

On a Windows computer, there are two ways that Home Designer can be removed: from the Control Panel and using the Setup Wizard on the program disk. Please note that if you do not have an active Internet connection, your license will not become deactivated.

#### To remove the program using the Control Panel

- 1. Open the Windows Control Panel.
- 2. Double-click Programs.
- 3. Find the Home Designer program in the list and click **Remove**.

#### To remove the program using the Setup Wizard

- 1. Launch your downloaded program installer or place the disc in the DVD drive and select **Install** Home Designer from the Home Designer startup window.
- 2. On the Setup Maintenance page, select Uninstall and click Next.
- 3. A message will ask if you would like to remove the selected application and its components. Click Yes.

# **Additional Resources**

There are many forms of help in Home Designer, including: Tool Tips, the Status Bar, online Help, written tutorials, and product documentation in PDF format. Still more valuable information is available on Home Designer's web site, www.HomeDesignerSoftware.com.

- Tool Tips and the Status Bar
- Help Contents and Index
- Home Designer Tutorials
- Reference Manual & User's Guide PDFs
- Home Designer Web Site
  - HomeTalk User Forum

**Tutorial Videos** 

# Tool Tips and the Status Bar

When you move your mouse pointer over a toolbar button or menu item, a Tool Tip displays, offering a brief description of the tool.

More information displays in the Status Bar at the bottom of the program window.

# **Help Contents and Index**

?

- Home Designer's Help Contents and Index is a browsable, searchable resource that provides a description of the tools and dialogs in the program. It can be accessed in several ways:
- Select Help> Launch Help from the menu.
- Place your pointer over any menu item, toolbar button, or selected object. When you see a Tool Tip in the Status Bar, press the **F1** key.
- Click the **Help** button in any dialog.

# **Home Designer Tutorials**

In addition to a description of each menu item, toolbar button, and dialog in the program, Home Designer includes a collection of written tutorials that describe how to create a plan in the program.

These tutorials can be quickly accessed on the Contents tab of Home Designer Help or by selecting **Help> View** User's Guide from the program menu.

### **Reference Manual & User's Guide PDFs**

The complete contents of the Home Designer Help is available in PDF format. Select **Help> View Reference Manual** or **Help> View User's Guide** to view either document in Adobe Reader. PDFs can be read on-screen, or you can print any pages you wish.

# **Tutorial Videos**

Home Designer users have access to a collection of online training videos that show you how to perform many tasks in the program. Select **Help> View Online Help Videos** to launch your Internet browser to <u>video.homedesigner.chie-farchitect.com/videos</u>.

Some Home Designer Help pages also feature links to Tutorial Videos that are relevant to the information on the page.

Click to view related online training videos

### Home Designer Web Site

Our web site, <u>www.HomeDesignerSoftware.com</u>, has answers to many frequently asked technical support questions. The online Knowledge Base contains a variety of articles describing how to resolve common technical problems and achieve specific design goals. New on-line tutorials are added regularly, and we invite you to visit our web site whenever you like.

### HomeTalk User Forum

Other Home Designer users have a wealth of knowledge they are willing to share. You can link to the HomeTalk user forum by selecting **Help> HomeTalk** from the Home Designer program menu or by going directly to <u>hometalk.chiefarchitect.com</u>.

Chief Architect strives to make our documentation as helpful as possible for all of our customers. Please send any questions, comments, or feedback to Documentation@HomeDesignerSoftware.com.
