Update Notes

September 17, 2026

1.0 - General Notes

This is a list of the fixes and improvements to existing tools introduced in the 28.1.2.4 and 28.1.1.6 program updates.

2.0 - 28.1.2.4 Update Notes - September 17, 2026

2.1 Program Overview

- Addressed a problem that could cause an error when launching the Windows version of the program.

3.0 - 28.1.1.6 Update Notes - August 25, 2026

3.1 The Library

- Fixed a crash that could occur when a Ganged Electrical Block was selected in the Library Browser in some cases.
- Fixed an issue that could cause slowness when selecting some items in the Library Browser.

3.2 Materials

- Fixed an issue that could cause the Select Material dialog to load very slowly the first time it was launched.

3.3 Layout

- Fixed an issue in which Plot Line views sent to layout could become corrupted when a pattern with dots was present.
